Regarding: Cabot Elementary School
Construction Site Access & Logistics

Dear Neighbors,

The purpose of this letter is to inform you that an updated construction site traffic logistics plan has been developed for the Cabot Elementary School project to address delivery access routes into the site and job site traffic flow now that the gym foundation work has begun.

The construction team will begin utilizing the Northern site gate on Bridges Ave for access to the North end of job site. The site gate on Parkview Ave will begin to be utilized for drywall metal framing and soil deliveries/trucking.

This updated plan will begin to be implemented starting March 5, 2018.

This updated plan was presented at the Cabot Community Update Meeting held on Thursday, February 8, 2018 and approved by NPD.

Construction will continue to be per the City of Newton ordinances and Police details will be present to direct traffic as necessary.

We will make every effort to utilize the Cabot site access gate and minimize access via Bridges Ave and Parkview Ave as much as possible.

Thank you for your time and support in this matter. Should you have any questions regarding the proposed work, you may contact Newton Public Buildings, Alex Valcarce at (617) 796-1600 or via email at avalcarce@newtonma.gov.

Very Truly Yours,

W. T. Rich Company, Inc.
John Finnigan, Project Manager
